SUPPORT WHILE TRAVELLING

PAGE 01

# Safari planning with rhythm, timing, and quiet precision.

We do not simply connect parks on a map. We shape each route around the season, your travel pace, the character of each camp, and the wildlife moments most likely to matter.

## SEASON-LED ROUTING

Travel windows are matched with migration patterns, predator activity, road conditions, and camp locations.

## HUMAN PACING

We balance game drives, scenic flights, rest time, cultural stops, and beach extensions so days feel generous.

## HANDPICKED STAYS

Every lodge or camp is chosen for atmosphere, location, guiding quality, and fit for your style.

## LOCAL SUPPORT

From Arusha to the coast, our team keeps the moving pieces aligned before and during your journey.

## 01 Listen first

We learn your dates, group style, budget, must-see wildlife, comfort level, and preferred pace.

## 02 Design the route

We propose a route with camps, movement logic, daily flow, guiding notes, and upgrade options.

## 03 Travel with confidence

Your transfers, permits, internal flights, park logistics, and on-ground support are coordinated end to end.

## GUEST-FIRST DETAILS

Meet and assist moments, private guiding, and thoughtful transitions between each safari chapter.

A great safari is not only where you go. It is how the days unfold, who guides you, and how naturally each moment leads to the next.

# From open plains to crater rims, river crossings, and island evenings.

Tanzania changes with every month. We use that movement to place you where the landscape, wildlife, light, and camp experience are working together.

## Serengeti National Park

Vast plains, predator country, calving grounds, river systems, and mobile safari routes that follow the movement of the herds.

## Ngorongoro Crater

A compact wildlife arena with dramatic scenery, high-density game viewing, and a powerful sense of geological theatre.

## Tarangire and Lake Manyara

Elephants, baobabs, riverine woodland, seasonal birdlife, and quieter safari moments before or after the Serengeti.

## Zanzibar and the Coast

A soft landing after safari: warm water, spice island culture, private villas, beach lodges, and time to slow down.

### JAN TO MAR

Calving season in the southern Serengeti and Ndotu, with dramatic predator activity.

### JUN TO OCT

Dry-season game viewing, river crossings in the north, and clear days for classic safari routes.

### NOV TO DEC

Short rains, green landscapes, fewer crowds, and excellent photographic atmosphere.

### YEAR ROUND

Private safaris, family trips, honeymoon escapes, cultural days, and Zanzibar extensions.

# Start with a travel style, then let us shape the route.

These sample journeys can be booked as inspiration or used as the foundation for something completely bespoke.

## Classic Northern Tanzania

7 TO 10 DAYS

Tarangire, Ngorongoro, and Serengeti with strong wildlife viewing and a comfortable rhythm for first-time safari guests.

Best for: couples, families, first safari, mixed interests.

## Great Migration Focus

8 TO 12 DAYS

Seasonal routing for calving plains, central Serengeti predator country, or northern river crossing windows.

Best for: wildlife lovers, photographers, return travellers.

## Safari and Zanzibar

9 TO 14 DAYS

Big wildlife days followed by a relaxed island stay with private transfers, beach time, spice culture, and ocean air.

Best for: honeymooners, families, slow travel, celebrations.

## What we arrange

- Private safari vehicle and professional guide where suitable.
- Lodges, tented camps, villas, and beach stays matched to your style.
- Park fees, transfers, internal flights, and route logistics.
- Special moments: bush breakfasts, sundowners, walking safaris, balloon flights, and cultural visits.

## Ready to plan your safari?

Send us your preferred travel month, number of travellers, budget range, and the wildlife or places you most want to experience.
